

Voluntary Water Use Restrictions

Due to mild water shortage conditions, Bammel UD has initiated Stage 1 of its Drought Contingency Plan. Under this plan, customers are encouraged to voluntarily reduce water consumption by adhering to the following guidelines: Limit irrigation watering to occur no more than two (2) days per week, between the hours of 7:00 pm and 5:00 am. If you have an even numbered address, water only on Thursdays and Sundays. If you have an odd numbered address, water only on Wednesdays and Saturdays. For all other customers, water only on Tuesdays and Fridays. No watering on Mondays.

This plan will remain in effect until notice is given that it has been rescinded, or it may be replaced by a more stringent plan if water shortage conditions worsen. Please check our website for updates to this situation at wdmtexas.com or call Water District Management at 281-376-8802.
