

Boil Water Notice Rescinded

Harris County MUD 220

February 23, 2021

On February 18, 2021, the Texas Commission on Environmental Quality required Harris County MUD 220 public water system, (PWS ID 1013321) to issue a Boil Water Notice to inform customers, individuals, or employees that due to conditions which occurred recently in the public water system, the water from this public water system was required to be boiled prior to use for drinking water or human consumption purposes.

The public water system has taken the necessary corrective actions to restore the quality of the water distributed by this public water system used for drinking water or human consumption purposes and has provided TCEQ with laboratory test results that indicate the water no longer requires boiling prior to use as of February 23, 2021.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses).

If you have questions concerning this matter, you may contact Water District Management at (281) 376-8802.
