RESOLUTION REGARDING RESPONSE  
TO PETITION FOR ELECTION

THE STATE OF TEXAS §

COUNTY OF HARRIS §

HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 92 §

WHEREAS, the Board of Directors (the "Board") of Harris County Water Control and Improvement District No. 92 (the "District") received a Petition for Election submitted by residents of the District on January 6, 2025 (the "Petition");

WHEREAS, the Petition was submitted pursuant to Section 49.23603, Texas Water Code, and Section 26.075, Texas Tax Code, wherein qualified registered voters may submit a petition for reduction of the adopted tax rate, when certain criteria is met; and

WHEREAS, pursuant to Section 26.075(e), Texas Tax Code, the District has 20 days to determine the validity of the Petition by resolution; and

WHEREAS the Board of the District deems it necessary to adopt this resolution to make a determination as to the validity of the Petition and to take action necessary therewith.

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF HARRIS COUNTY WATER CONTROL AND IMPROVEMENT DISTRICT NO. 92 THAT:

I.

The Board of the District hereby finds that the Petition, as submitted pursuant to Section 49.23603, Texas Water Code, and Section 26.075, Texas Tax Code, is invalid.

The Petition is found invalid, because the adopted 2024 tax rate does not impose more than 1.08 times the amount of tax imposed by the District for the 2023 tax rate on the average appraised value of a residence homestead in the District. The adopted total tax rate of \$0.2070 per \$100 of assessed valuation imposes a 1.055 times the amount of tax imposed by the District for the 2023 tax year.

Further, the Petition is invalid because the adopted 2024 tax rate does not exceed the voter-approval tax rate of \$0.207047, as calculated pursuant to Texas Comptroller Form 50-858, completed by the District's Tax Assessor/Collector, Spring Independent School District, which is also attached hereto as Exhibit "A".

II.

The President or any Vice President are authorized to execute, and the Secretary or any Assistant Secretary are authorized to attest this Resolution on behalf of the Board of the District and to do any and all things necessary to carry out the intent hereof.

Passed this 23rd day of January, 2025.

**GENERAL INFORMATION:** The Comptroller's office provides this worksheet to assist water districts in determining their voter-approval tax rate. The information provided in this worksheet is offered as technical assistance and not legal advice. Water districts should consult legal counsel for interpretations of law regarding tax rate preparation and adoption.

Indicate type of water district:

Low tax rate water district  
(Water Code Section 49.23601)

Developing water district  
(Water Code Section 49.23603)

Developed water district in a declared disaster area  
(Water Code Section 49.23602(d))

## SECTION 1: Voter-Approval Tax Rate

The voter-approval tax rate for low tax rate and developing water districts is the current year's debt service and contract tax rates plus the maintenance and operation (M&O) tax rate that would impose no more than 1.08 times the amount of M&O tax imposed by the water district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.

The calculation process starts after the chief appraiser delivers to the taxing unit the certified appraisal roll or certified estimate of value and the estimated values of properties under protest. The designated officer or employee shall certify that the officer or employee has accurately calculated the tax rates and used values shown for the certified appraisal roll or certified estimate. The officer or employee submits the rates to the governing body by Aug. 7 or as soon thereafter as practicable.

If any part of a developed water district is located in an area declared a disaster area during the current tax year by the governor or by the president, the board of the district may calculate the voter-approval tax rate in the manner provided in Water Code Section 49.23601(a) and determine whether an election is required to approve the adopted tax rate in the manner provided in Water Code Section 49.23601(c). In such cases, the developed water district may use this form to calculate its voter-approval tax rate.

**SECTION 2: Election Tax Rate**

For a low tax rate water district, the election tax rate is the highest total tax rate the district may adopt without holding an automatic election to approve the adopted tax rate.  
 For a developing water district, the election tax rate is the highest total tax rate the district may adopt before qualified voters of the district may petition for an election to lower the adopted tax rate.

If any part of a developed water district is located in an area declared a disaster area during the current tax year by the governor or by the president, the board of the district may calculate the election tax rate as the highest tax rate the district may adopt without holding an automatic election to approve the adopted tax rate.

In these cases, the election tax rate is the rate that would impose 1.08 times the amount of tax imposed by the district in the preceding year on the average appraised value of a residence homestead in the water district. The average appraised value disregards any homestead exemption available only to people with disabilities or those age 65 or older.<sup>7</sup>
